

BATTERY RACK

Also available with Drip Pan and Lane Dividers.

Borroughs is known nation wide, as a premier designer and manufacturer of storage equipment solutions for industrial, automotive, and general storage applications. Our new free-standing Battery Rack is made of our durable steel and comes in 4 different sizes and variations. These racks accommodate a variety of battery sizes and types; a great addition to any automotive service area.

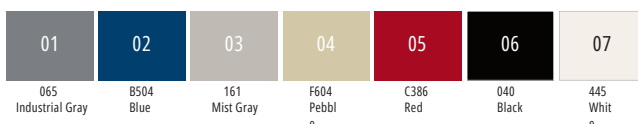

FEATURES INCLUDE:

- Design based on no-welding, and utilizing as few fasteners as possible for easy assembly.
- Integrated stops at back, front and sides for containing batteries and providing product safety.
- Each level is inclined at 12° for ease of inventory flow.
- Shelf capacity is 780 - 1,100 pounds per shelf.
- System holds 80-100 batteries.
- Optional painted Drip Tray is available at the floor level.
- Optional painted Lane Dividers are available to improve product segregation.
