Terms and Conditions

Part Numbers

All QS orders must utilize specified QS part numbers available in the Quick Ship catalog. Configurations outside of what is displayed on the QS program specification sheets are not available under the QS lead times.

Purchase Orders

For QS processing, please submit QS items on separate purchase order and clearly indicate “AMS Quick Ship”. Purchase orders must include correct part numbers, pricing, reference a quote # if applicable, contain accurate contact information, and have a suitable address for material delivery. Do not combine QS and non QS items on the same purchase order. If an order is received with both standard and QS line items, the QS items will be broken out as a separate sales order and scheduled to ship separately. This additional step may delay processing.

Quantities

QS items subject to available stock at time of order. Large orders may be subject to limitations on the quantities. Any orders above that quantity will be treated as a standard order and standard lead times will apply.

Pricing

For pricing on QS items please contact quickship@airmastersystems.com.

Fast Processing

If a clean purchase order is received by AMS by noon EST, it will be entered within the same business day. Clean purchase orders received by AMS after 12:00PM EST will be entered by the end of the next business day. Once the order is processed, an email confirmation will be sent with the sales order number and estimated lead time.

Lead Times

QS orders will ship within 15 business days as calculated from the time of sales order confirmation. All ship dates are estimated, and 15 day lead times do not include weekends or holidays.

Change Orders

Change orders and order cancellations cannot be accepted once a QS order is processed by AMS.

Freight and Shipping

Orders will ship complete based on longest lead-time item. QS orders will ship within 15 business days as calculated from the time of sales order confirmation, and freight will be arranged through the dealer.

Returns

No returns, exchanges, or restocking can be accepted for QS items. All sales are final.

Disclaimer

Air Master Systems reserves the right to modify this program at any time. Refer to the AMS Quick Ship catalog for program updates and information.

Warranty

Standard Air Master Systems warranties applies to QS items.

Model #	Superstructure W" x H" x D"	Worktop W" x H" x D"	Hood Opening W" x H"
QS-SOL-48	48 x 56 x 33.75	48 x 1.25 x 30	38 x 29
QS-SOL-60	60 x 56 x 33.75	60 x 1.25 x 30	50 x 29
QS-SOL-72	72 x 56 x 33.75	72 x 1.25 x 30	62 x 29

The Solution Hood was designed to handle a multitude of applications. Its streamlined posts and radius airfoil, along with a 36-inch height viewing area, offer a softer look than conventional fume hoods. The hood passed NIH, EPA and ASHRAE 110 testing by a third party. The hood can be used in both CV and VAV designs. The epoxy work surface is included, as well as electrical which comes standard.

Table Frames

Table Frames with No Top

Model #	W ^o x D ^o	Worksurface H ^o	Description
QS-TF-AL4830-N	48 x 30	30 - 38	Leveler feet
