

1200 SERIES STORAGE CABINETS

STEEL STORAGE CABINETS

Lyon's 1200 series metal office storage cabinets provide a virtual storeroom of space! Besides use as office supply storage cabinets, you can use these for retail stock, in school classrooms, or in a home garage.

These storage cabinets give you space to hold either office supplies and stationery or even parts or products. These metal cabinets offer all the great features of a Lyon cabinet but at a lower economical price point.

1200 series cabinets feature a durable Dove Gray powder coat paint finish that will stand up to harsh use.

DURABLE STEEL CONSTRUCTION

The 1200 series cabinet features durable steel construction. The modern front corners provide a sleek look. The full height double doors open wide to allow you full access to all areas of the cabinet. The 2-3/4" high base provides extra toe room below the storage cabinet when the doors are open.

LOCKING TURN HANDLE

A polished chrome plated handle easily turns to hold the doors closed. The 3-point locking system helps secure the door closed at the top and bottom of the cabinet. A keyed lock integrated into the handle offers further security. Each lock includes two keys.

ADJUSTABLE SHELVES

The 1200 series cabinet includes fully adjustable shelves. These shelves can be adjusted on 3/4" centers without tools. Each shelf is held in place with four shelf clips.
