Today there are so many choices in storage components, it's hard to pick something that meets all storage needs and fits into your budget.

Sometimes the **EASY** solution is not the **BEST** or **CHEAPEST**.

Chances are, everyone thinks of lateral cabinets when it comes to storage.

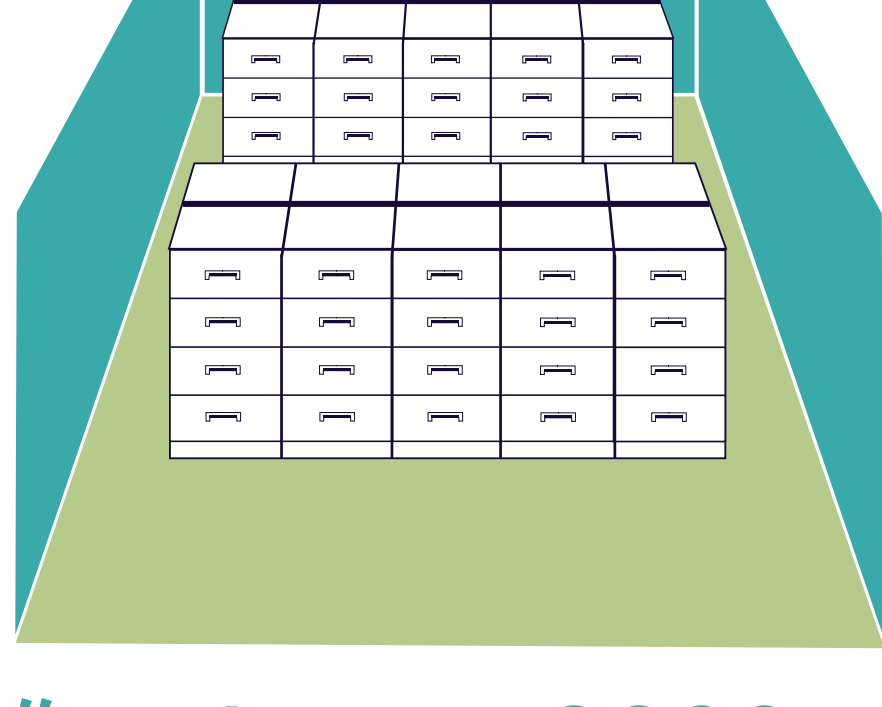

But **STOP** just a minute...

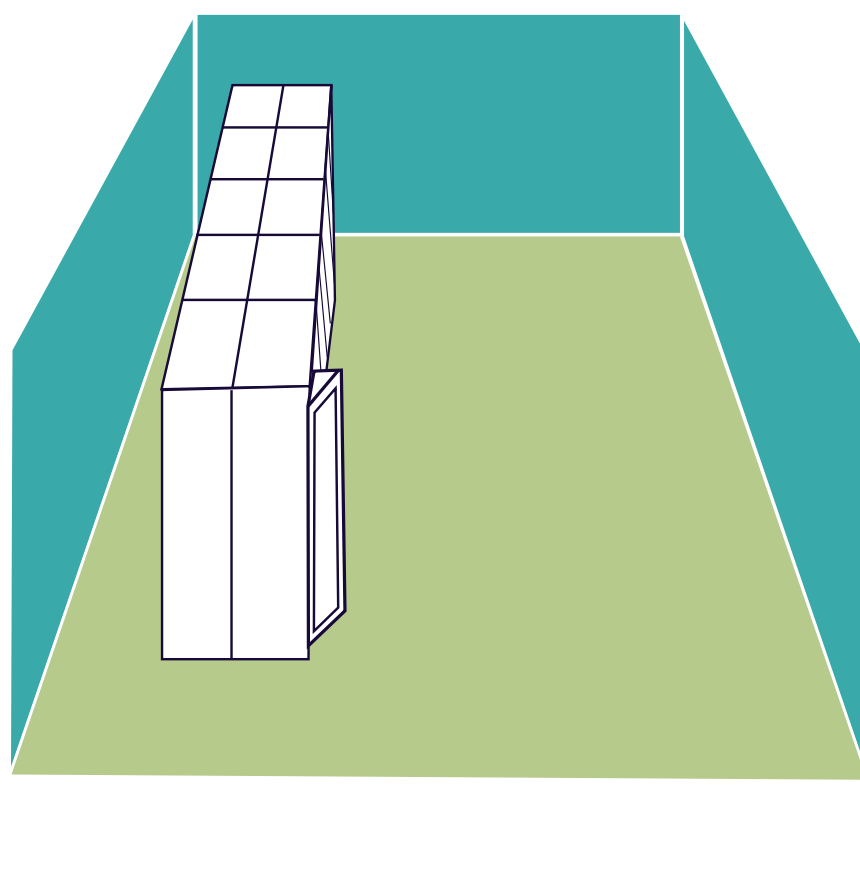

Let's consider a fascinating alternative to see how you can save some serious cash, a load of space, and still get all the storage you need.

TAKE THIS EXAMPLE:

Using this same 24' x 17' room we've placed 20 lateral cabinets for storage.

20 Lateral Files, 42" wide, 4 drawers = 3200 LFI

This same space with **Times-2 Rotary Cabinets** provides more storage and saves space.

10 Rotary Cabinets with 7 Openings = 3360 LFI

You save 190 square feet of space!

What will you do with all that saved space?
