

MOBILE LIBRARY CARTS

Transporting loads of books has never been easier with the versatile line of Aurora Library Carts which feature a 1,000 pound capacity. Large gray poly casters (two swiveling casters with locking brake and two rigid casters) ensure smooth tracking on hard surface flooring as well as carpets. Carts come with several style options including a steel top, a laminate top, and laminate top and laminate sides to match.

SPECIFICATIONS

The Aurora Library Cart is a double-sided book transport cart with three 24" deep shelves per side and three center stops that create six openings (three 12" deep openings on each side). Four 4" Gray Poly Casters are each rated at 250 lbs; two casters swivel with locking brakes and two are rigid casters. Steel used in the cart contains 40% recycled content and is coated with Gloss-Tek a durable epoxy-polyester powder coat with no VOCs (Volatile Organic Compounds). Carts are shipped KD (unassembled) with installation instructions, basic tools to assemble, and all hardware required. Pricing is based on standard color options for the steel cart (15% up-charge for metallic finishes) and laminate pricing is based on Standard Wilsonart Selections, no Premium or High Definition or Premium Surface Textures on the laminate itself).
