

RETAIL STORAGE

MAXIMIZE YOUR STORE'S POTENTIAL

Aurora Storage Products has storage solutions for your retail business to efficiently manage stockrooms and to present a stylish look in your showroom.

Wood-Tek Showroom Displays

These custom designed showroom fixtures have elegant Wood-Tek cladding surrounding Quik-Lok Steel Shelving for durability and adjustability.

Stockroom Storage

A revamped and efficient stockroom can save money, make life easier for your sales associates, and increase customer satisfaction. Here's how.

- By storing more stock in the backroom, retailers can cut truck deliveries by 10% – 50%. Over the course of a year this can yield huge savings.
- By creating buffer back up stock, retailers can increase customer satisfaction at having the right merchandise on hand just when customers need it.
- By making it easier for sales associates to organize and locate stock you are in a win-win situation selling higher volume of additional stock.

Aurora Shelving and Aurora Mobile Shelving can organize your stockroom and make your retail operation far more efficient.

Store 50% more stock with Aurora Mobile.

Aurora Quik-Lok Shelving uses every bit of vertical stockroom space.
Assembles with no tools and adjusts easily.
