TIMES-2™ QUIK-STATION

PRODUCT SUMMARY:

All the advantages of an Aurora Times 2™ Rotary Storage Cabinet with the added benefit of a handy reference or work surface. This unique accessory to the Aurora Times-2 provides an instant work surface that can be set up in seconds and folded down when not needed. It is available for all Aurora Times-2 Rotary Storage units 3 tiers high and above, in both letter and legal depths.

PRODUCT FEATURES AND BENEFITS:

- Easy set up – create an instant work surface or hot desk station in seconds.
- Easy down – quickly folds down out of the way when not needed.
- Order this accessory for new Times-2 units or retrofit to existing units.
- Choose from WilsonArt laminate selection for work surface. Coordinates with any décor.
- Compatible with the Times-2 Caster Kit for even more versatility.
- Compatible with the Times-2 Quik -Panel located above or on the opposite side of the rotary storage unit.
- Mounting brackets match the Times-2 units and are available in all standard Gloss-Tek™ powder coat color.

TECH SPEC:

The Aurora Times-2™ Quik-Station work surface shall consist of a high pressure laminate bonded to a high density particle board core with a dimension of 26 inches (660 mm) wide by 24 inches (610 mm) in depth. Edges shall be finished either with a matching high pressure laminate self-edge or a durable vinyl "T" mold. The Quik-Station work surface shall be designed to be hinged at the attachment bracket to enable it to pivot down to a vertical position when not in use. The minimum working surface height shall be 29 inches (737 mm). The Quik-Station work surface hinge bracket assembly shall be designed to securely attach with supplied ¼-20 bolts and nuts to either side of an Aurora Times-2 Rotary Storage unit. All steel components of the work surface bracket assembly shall be manufactured from ASTM 1045 cold rolled steel with a minimum 40% recycle content, and be finished to match the accompanying Aurora Times-2 Rotary Storage unit with an electrostatically applied Gloss-Tek™ powder coat which shall meet or exceed ASTM D3451-06 test requirements. Shall be compatible with the Aurora Times-2 Caster Kit.
