

Aurora Art Rack

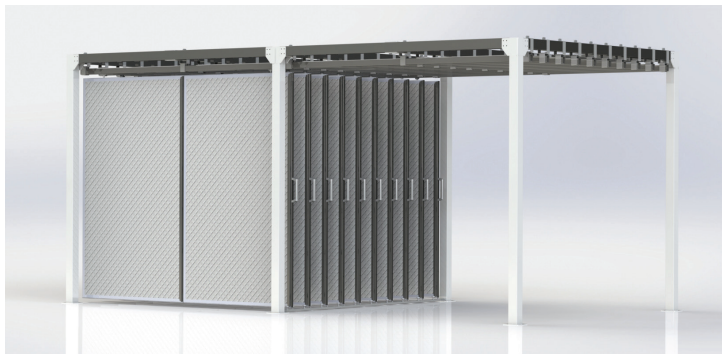

Aurora Storage Art Racks are a custom solution to storing paintings in reserve collections, research areas, or for higher density storage of paintings where space is limited. A solid, smooth-welded frame encloses heavy duty mesh panels sized to your exact dimensions.

Another custom alternative is to mount Art Racks to mobile carriages thereby increasing your storage by 50% or more while saving valuable floor space.

Vertical panels mount securely to the carriages to ensure smooth and gentle tracking.

Features & Benefits

- Modular construction
- Free standing, ceiling mounted, and hybrid options available
- Sway prevention
- Easy adjustable art screen spacing
- Custom heights and widths to maximize storage density
- "Soft Stop" bumpers to protect fragile art pieces
- Ball Bearing movement for low vibration, easy pull, silent access
- Easy on-site assembly
